

FIRST QUESTION: what output for Part 1 of the project?

For

①

112

the only preimage is (1)

②

what about 11122?

Now the pre-images are

(112)

((1))

How will you present the output? I think that

the output should be a

list of pre-images — So, for ①,

the output should be

((1))

and for ② it should be

((112) ((1)))
